## Foamcore box insert and trays

All measurements are in millimetres in this format: width x height.

Foamcore thickness is 5mm.

### Using Foamcore: The Basics

- Always use a sharp craft knife and a metal ruler, be careful of your fingers, and cut directly down to ensure a clean 90° edge.
- Measure carefully; using a cutting mat marked with a grid can be helpful to ensure accurate 90° angles.
- Draw a thin line of white craft glue along the middle of the foamcore edge and clean up any excess after pressing surfaces together.
- Use dressmaking pins to keep pieces together; you can remove them once the glue is dry.
