Hello fellow gamer

THE ESOTERIC ORDER NEEDS YOU!

I've been supplying tabletop gamers with free, professional quality rules summaries for more than a decade. I've made over 300 of them!

The Esoteric Order of Gamers also features hundreds of entertaining and informative videos about our hobby.

But it takes time and money to give you all this great gaming stuff. Just a few \$ a month really helps—and you get to be part of the official EOG community on Patreon (with bonus rewards!)

Foamcore box insert and trays

All measurements are in millimetres in this format: width x height.
Foamcore thickness is 5mm.

Using Foamcore: The Basics

- Always use a sharp craft knife and a metal ruler, be careful of your fingers, and cut directly down to ensure a clean 90° edge.
- Measure carefully; using a cutting mat marked with a grid can be helpful to ensure accurate 90° angles.
- Draw a thin line of white craft glue along the middle of the foamcore edge and clean up any excess after pressing surfaces together.
- Use dressmaking pins to keep pieces together; you can remove them once the glue is dry.

This bit is optional, but sometimes I like to cut the FFG insert to size and use it as a divider or lid to the inserts.
