**Foamcore box insert and trays**

All measurements are in millimetres  
 in this format: width x height.

**Use 5mm thick foamcore sheets.**

**Using Foamcore: The Basics**

- Always use a sharp craft knife and a metal ruler, be careful of your fingers, and cut directly down to ensure a clean 90° edge.
- Measure carefully; using a cutting mat marked with a grid can be helpful to ensure accurate 90° angles.
- Draw a thin line of white craft glue along the middle of the foamcore edge and clean up any excess after pressing surfaces together.
- Use dressmaking pins to keep pieces together; you can remove these once the glue is dry.
